

Meet SaveStation

SaveStation is providing unprecedented access, awareness and education that is needed to save more lives.

With only 10 minutes to save a life, we are highly dependent on the general public to quickly find an AED and to feel confident to use it. SaveStation is a standard housing solution, for ANY AED and offers a comprehensive educational platform to share with your network.

SaveStation brings any AED program to life!

Value-added Features:

- ✓ AED/CPR [training videos](#) for all AEDs, designed to be shared with all staff.
- ✓ Modular add-on unit for additional first aid supplies, e.g. Bleeding Control Kit, EpiPen, Naloxone, First Aid Kit.
- ✓ AEDs can now be placed outdoors in SaveStations, providing the public with 24/7 access.
- ✓ Use the [SaveStation Crowdfunding](#) platform to raise funds and generate a public-awareness campaign.
